THAI FOUNDATION

Message from Chairman

DR. KATIA WACHARAPORN
Chairman

The connection between the Thai Foundation was made under the supervision of Dr. Katia, MD of a travel company called Discovery Holiday Grp. She had the idea of helping and giving charity. She traveled to meet brothers and sisters in many areas and saw the hardships of the people. She had the idea to help those people and established the Foundation with this purpose.

And in the near future, the Thai Foundation would like to help our brothers and sisters, both Thai and foreign, who are in trouble and the foundation is ready to help government agencies if they ask for help.

At present, the foundation is registered as the Thai Foundation, in accordance with the requirements and regulations of government agencies, and has been granted full permission to be a foundation and is ready to follow the objectives and goals set out in the application for permission.

THAI FOUNDATION

Mission, Vision and Values

We are a global humanitarian foundation with strategic initiatives driven by our mission and founded on the intentions of our donors. We aim to improve the quality of life for individuals living in poverty and experiencing disadvantage around the world.

Mission

We are guided by the intentions of our donors from Dr. Katia, who has given almost all of his personal wealth to the foundation and given it a charitable mission. “Because the funds you will be spending come from different places in Thailand,” Dr. Katia advises, “don’t let there be any restrictions on your giving based on geography, religion or skin color.” In our workplace and in our collective efforts to alleviate human suffering, we embody their values of honesty, thinking big, humility, responsibility and compassion.

Vision

The Thai Foundation envisions a world where the quality of human life will be sustainably improved. “Love one another, for that is the whole law,” wrote the doctor in his vision. “People in this world deserve love and encouragement, not to be left alone in poverty and darkness.” That is our intention.

Values

Dr. Katia dreams big, thinks big and does big. From building a global hotel empire to donating nearly all of his wealth to the Thai Foundation to help those in need, in line with his entrepreneurial spirit, ethics and philanthropy, we infuse the following values into our culture and workplace activities:

THAI FOUNDATION

DR. KATIA WACHARAPORN
Chairman

Honesty

We are guided by a moral compass that guides us to be honest and fair in everything we do.

Think Big

We are inspired by Dr. Katia's quote: "Nothing worth doing is ever done without passion." Instead of being discouraged by the big challenges we face, we have the hope and courage to seek bigger solutions.

Humility

We seek partners to find solutions to challenging social problems, recognizing our own limitations.

Management

We maximize our resources to drive our mission and achieve long-term sustainability goals for the programs we support. We prioritize effective operations, measurable results, and investment in the talent of our employees and grantees.

Compassion

We work with genuine respect and concern for the lives of the underprivileged. We are inspired by Dr. Katia, who told us to "love one another" and the spiritual life he lived.

THAI FOUNDATION

Partners and Collaboration

To comply with the regulations and provide support and cooperation to various foundations in Thailand for humanitarian purposes.

Opportunity is the force that creates the world.

THAI FOUNDATION

Programs and services

In 2025, the foundation plans to help people in need and disadvantages, divided into 6 locations within 1 year.

THAI FOUNDATION

Programs and services

Our foundation has an urgent plan to help and develop the people of Burma by 2025 as soon as possible.

Burmese people are in urgent need of assistance due to internal war and earthquake disaster.

THAI FOUNDATION

Our pride image

Under the management of Dr. Katia in Discovery Holiday Company, she had a strong desire to help the less fortunate and had the highest desire to create love and reduce social problems to have respect and equality for fellow human beings. She sacrificed some money to support the establishment of Thai Foundation in accordance with its objectives, which is why these impressive images were created.

THAI FOUNDATION

The needs of the Thai Foundation

After the Covid crisis, the Thai Foundation reduced its role due to the direct support income from the tourism company Discovery Holidays. However, due to Dr. Katia's strong will, she would like to open for donations from all sectors to allow the foundation to resume its operations as mentioned above.

Strong Resolution

Thai Foundation has organized CSR activities on a voluntary level, which are CSR activities organized voluntarily, in addition to the duties that must comply with the law and conduct business ethically, such as helping the poor, donating scholarships for the disadvantaged, donating to charity, helping patients, building public utilities for schools, promoting awareness of social issues, etc. The characteristics of the CSR activities that we do are:

THAI FOUNDATION

- 1. Social Issue Promotion:** Businesses organize activities or campaigns to promote various issues in society, or may help in terms of funds and resources, or raise funds to help environmental organizations.
- 2. Social Issue-Related Marketing:** Marketing that helps society, dividing a portion of sales to support or donate to various agencies/foundations, such as dividing sales to hospitals to help patients who are in financial difficulty or lack financial resources.
- 3. Corporate Social Marketing:** Business activities or marketing that support creating awareness about social issues, focusing on changing behavior in various areas.
- 4. Corporate Philanthropy:** Donating both funds and material resources to help social issues. Both from requests for help and from situations, such as donating money and supplies to help flood victims, donating money to help cancer patients.
- 5. Community Volunteering CSR activities** in which businesses invite employees to volunteer their personal time to help society. The organization may initiate the activity or join an existing organization, such as garbage collection activities at tourist attractions, garbage collection activities in rivers, forest fire barriers.
- 6. Socially Responsible Business Practices** Conducting business ethically, taking into account the impact on people in society and surrounding communities, and avoiding promoting various problems, such as using environmentally friendly raw materials, using fair labor, and promoting employees to have a social conscience.
- 7. Developing and Delivering Affordable Products and Services**

THAI FOUNDATION

CHAIRMAN : Dr.Katia Wacharaporn

Purposeful Partnerships, Powerful Outcomes

Our grantmaking strategy is clear-cut and purpose-driven. We champion long-term partnerships that spark lasting change in seven core program areas: Foster Youth, Refugees, , Safe Water, Global Early Childhood Development, Homelessness, and Opportunity Youth. To uphold this strategic approach, we do not accept unsolicited proposals. Instead, we proactively seek out initiatives that promise not only to meet but exceed our objectives for global betterment.

By carefully selecting projects and grantees that align with our mission, vision and values, we amplify our collective potential to alleviate human suffering and ensure that our actions and investments translate into transformative results.
